

Pioche Weekly Record

THURSDAY, NOV. 9, 1923.

Arrival and Departure of Mails.

PIOCHE AND MILFORD.
Arrives Sundays, Wednesdays and Fridays at 6:30 a. m.
Departs Sundays, Wednesdays and Fridays at 8 a. m.

PIOCHE AND ELY.
Arrives Tuesday and Saturday, at 6:45 p. m.
Departs Monday and Friday at 8:00 a. m.

PIOCHE AND HELENE.
Arrives Tuesday and Saturday, at 6:00 p. m.
Departs Monday and Friday at 8:00 a. m.

PIOCHE AND HIKO.
Arrives Tuesday and Friday at 6:00 p. m.
Departs Saturday and Wednesday, at 10:00 a. m.

POSTOFFICE HOURS.

8 A. M. TO 7 P. M.
SUNDAYS.
6 P. M. TO 7 P. M.
No money orders issued or letters registered after 6:30 p. m. and none on Sundays.
JOHN SHIER, P. M.

LOCAL INTELLIGENCE.

Are your water pipes protected against frost?
No work is at all being prosecuted now by the Pioche Con. Co.

Subscribe for the Record and get the latest telegraphic as well as local news.

F. P. Swindler and Wm. Lloyd went down to Ferguson District yesterday.

John Smith is ready to ship a car load of ore from the Onondago mine at Jack Rabbit.

Geo. C. Blanchard, Jr., left Tuesday for the live town of Cripple Creek, Colorado, where he is offered a position.

Court business being at an end, Judge Talbot and ex-Judge Rives left Friday morning for Ely, where a sitting of the District Court opened on Monday last.

H. Rice still lingers at Salt Lake, where he hopes to secure himself and several others against loss from the June cattle delivery. The cattle-men hereabouts feel the misdeal badly.

The friends of Miss Mattie Sawyer treated that young lady to a surprise last evening, and gathered in force to enjoy the evening which they succeeded admirably in doing.

Ed. F. Freudenthal, T. E. Edwards, T. J. Osborne and John R. Cook, all prospective coupon clippers, go to Ferguson District to-morrow, each to look after mining interests which he possesses in that promising section.

Notice that taxes for the current year are payable now at the County Treasurer's office. See the regular notice in another column this week, and don't become delinquent if you can avoid it. Ten percent is as good to you as to the county.

To relieve headache, correct disorders of the stomach and increase the appetite, and for the cure of liver complaint, use Ayer's Cathartic Pills. They are perfectly safe to take, and invariably promote a healthy action of the digestive and assimilative organs.

"A Reader," who sent in a communication to this office last Saturday, is notified that we decline to publish it. If he sends in readable news, we will be glad to print it, but he can't sandwich in a raking over the coals for one of his neighbors, who is perhaps, equally as good as himself.

Returns of the Salt Lake market for ore recently shipped have been anything but gratifying to the producers. Nothing but high grade ore will pay, and that but slightly. The smelters are losing nothing on the depressed price of silver, evidently; on the contrary, they are said to have reaped larger profits during the past summer than for many years past.

Mining Location Notices for sale at this office.

We hope to alter the Record's appearance next week and for the better, and shall continue to give our subscribers what is said to be the best weekly paper this section has yet had. We can't do it on-estimate alone, however, and must ask those of our subscribers who know themselves to be in arrears, to settle up, and enable us to get a new square start.

Work continues at Bullionville by W. R. Goode, in getting the small quartz mill in place. Two stone-masons arrived there from Salt Lake last Sunday and are at work on the boiler. The first work done when the mill is ready will be to run through the roasted tailings on hand, about 400 tons, after which a test run on Ferguson gold ore may be made.

Thompson Campbell, Esq., an old Piocher, has been appointed legal counsel for the Union Pacific railroad system in Montana on behalf of the road's receivers. Proceedings to appoint receivers for all the U. P. Co.'s property in Montana have been instituted, and serious complications are threatened. Mr. Campbell's appointment is regarded as a good one for the receivers and will no doubt prove profitable to himself.

Last Friday the connection of the Yuba 13th level west drift with the old workings of the Maseppa and Meadow Valley shaft No. 3, was effected. The distance between the two shafts is about two thousand feet. The work has been in progress for a long time, principally from the Yuba, or east side, and has been delayed on account of caved ground, and the fact that data furnished by old maps, etc., was defective. The air current is

great now, and it will be the preservation of the Yuba shaft, it is thought, in which it has an up cast.

If you want a reliable dye that will color an even brown or black, and will please and satisfy you every time, use Buckingham's Dye for the whiskers.

JOB PRINTING in all its branches, equal in style to any, done at this office.

A Kansas farmer, who sent \$1 to an Easterner who advertised how to keep horses from slobbering, received the answer: "Teach them to spit."

The wisest course in politics is to vote for the best man, and you cannot be mistaken if you take Ayer's Sarsaparilla, because all parties agree that it is the best—The Superior Medicine. Try it this month.

Johnny had been inspecting the visitor's derby hat and listening to his conversation. What he thought of the latter was shown by his question: "Say, Mr. Burke, are these holes in your hat for talking through?"—Ex.

The winters wraps are immense—quite overwhelming in fact. One sees nothing of the woman when she puts on a fashionable cloak—only a lot of silk and velvet and a lot of fur. The big fur-edged shoulder capes completely hide her figure and make her look pretty nearly as broad as long.—Ex.

Dr. A. Bjornson, at the Postoffice drug store, will receive to-morrow's consignment of general goods, embracing numerous fresh drugs for prescription purposes, patent medicines, stationery, toilet articles, perfumery, etc. The store will be kept supplied with all articles usually found in that line and prices will be in accordance with the times.

The leases of the Flagstaff mine at Ferguson have cut the ledge after running some 215 feet in the tunnel, and have uncovered ore. Word to this effect was brought in last evening. The development was new and particulars concerning it are scarce, but the ledge is found at about the point expected, which is very gratifying to all concerned.

Secretary Manley of the Nevada Southern R. R. Co. acknowledges in a warm letter the receipt of a copy of the resolutions passed at the railroad meeting held here two weeks ago, and says his company are using every effort to construct this winter a hundred miles of the road. This would reach the Muddy Valley and would make it an outlet for Ferguson district ore. President Blake is at Los Angeles securing subscriptions with which to prosecute the work.

Parties came in from Silver King district last Friday to arrange for the burial of Bristol O. P. Bailey, who died at Silver King on Thursday last. Mr. Bailey was an old resident of this county, his home being at the springs six miles north of Bristol for a long time, where he looked after live stock. For some time past he had been living with Stewart Manish. He was about 75 years of age and death came to him from a general breaking down, resulting from old age.

A number of local bids have been forwarded to the Postal Department on mail routes leading out of Pioche. In nearly every case they are placed as low as the work can be done for, made with a full knowledge of the road to be traveled, distance and cost. If the result of the December openings is that some outside party gets in on a speculative figure, less than the work is worth, he ought to be made to execute his contract. Further object lessons in the matter ought not to be required hereabouts. The losses sustained on the Milford and Meadow Valley Wash routes and the Ely and Revere line in the past four years, through the swindling McCoy stage company, ought to impress embryo carriers hereabouts.

A New Mining District.

One of the most promising and busy mining districts which has recently come into prominence is that of Crescent, situated thirteen miles by trail northeast of Vanderbilt. It nestles among the hills on the eastern slope of the mountains, and occupies as picturesque a location as one often sees. A new wagon road over the low divide connects the mines with Vanderbilt and already twenty-nine men are employed in sinking shafts and driving tunnels. Prominent in the camp are H. M. Stevens, superintendent of the Paisano Co. partnership mining company, and A. E. Stevens, superintendent of the Free Gold mining company. Both are pursuing the systematic development on several mines.

The Cornucopia, situated in the northern part of the district, is stopping and sacking ore preparatory to shipment. Nearly all the discoveries made so far show a large percentage of gold. Among the present discoveries may be mentioned the Paisano, Free Gold, Baltimore, Manhattan, Jupiter, Somerset, Mahogany, Gold Standard and Cornucopia. The ores carry galena and chlorite, as well as gold and silver, and the veins improve with depth. Water is found at ten and twenty feet.

The extension of the Nevada Southern railway toward Good Springs will pass within a few miles of this district, and greatly stimulate activity throughout that region. The Crescent gives every promise of becoming a large producing district, and those already there are very fortunate to be first on the ground. At this early period, however, the opportunities are abundant for further discoveries, and those seeking investments might find the field a very profitable one in which to expend some capital.—Needles Eye.

Death of an Old Timer.

The Gazette is called upon to record the death of another of Nevada's pioneers in the person of Don H. Barker, who died at the Lick House in San Francisco. The first news was received by Dr. J. A. Lewis in the following telegram:

San Francisco, Oct. 27.—Mr. Barker died this afternoon. The remains will arrive in Reno Sunday morning.

Mrs. D. H. Barker.

Thus it is that the grim destroyer is gathering in his victims. Don H. Barker was born at Syracuse, N. Y., on November 2, 1834, and was therefore 89 years, 11 months and 25 days old. He came to this State in 1859, and has been a constant resident ever since. By profession he was a civil engineer, and his calling took him to the eastern part of the State, where he was a prominent figure in the good old days of the Pioche and White Pine excitement.—Reno Gazette.

COMMISSIONERS' PROCEEDINGS.

At Monday's meeting of the Board of County Commissioners a small volume of business only came up for attention. Members Edwards and Conaway only were present, Chairman Schaefer sending word from Helene that he was unable to attend.

H. W. Turner was appointed to inspect the bridge recently constructed at Eagle Valley and to report next month.

A bill from the Holy Cross Hospital at Salt Lake, for \$574 for the care of William Benson, the miner who was sent from here, paralyzed, several years ago, was returned for correction; \$274 being paid on it a year ago, and no credit given. Benson is said to be doing fairly well, is fleshy, quite strong, but unable to talk, and probably will never be any better than now.

The monthly \$10 allowed for nursing H. Bressenger, the old tailor, was ordered discontinued, Bressenger to be allowed provisions to the amount of \$10 per month.

After allowing officers' reports and the usual quota of bills, \$84.94 was ordered transferred from the General to the Officers' Salary fund, upon which the Board adjourned.

THE KEYSTONE.

A Fine Property Which is Being Well Developed.

The Keystone Mining Company, operating in Yellow Pine district, Lincoln county, Nevada, contracted for a new ten-stamp mill sixty days ago. It was purchased in Denver and shipped promptly into Mesquite valley via Needles and the Nevada Southern railway, and erected at a point about seven miles from the Keystone mine, distant about 100 miles from Needles. Within six weeks from the date of purchase it was erected and put in perfect running order, and has been in operation about two weeks and the returns sent to Denver. The Needles National Bank sent out to the Denver mint this week two large retorts of gold from this mill, and hereafter regular shipments will be made.

S. T. Godbe, general manager of the company, is a man thoroughly conversant with mining and milling, and is in charge of this mine and mill. He reports a saving of over 90 per cent. of the ore in milling, which is an excellent showing for a new mill just started.

Many thought that sufficient water could not be obtained in Mesquite valley for milling purposes, but experience has proven the error of mankind in presuming that no water exists underground because none appears on the surface. In all this region it would be difficult to find a well that affords a larger supply of water or of a purer kind.

The merits of the Keystone mine and adjacent property are well known, but the success of the mill is recent and calls for special mention at this time. It is a living example of what can be accomplished in the country hereabouts if some money is expended with care and good judgment. This plant ought to be an incentive to other men to go and do likewise. The opportunities are countless, and there is plenty of money now lying idle, as well as idle mines and unemployed workmen. There never was a greater inducement to develop gold mines since our Western States were first populated.

This mine and mill will be the means of putting a large amount of money in circulation, as well as contributing handsomely in dividends to the stockholders, and if a few more enterprises like it could be started the returns would be immense.

The stockholders are largely Colorado and California men, but some of the stock is held by Nevada and Eastern parties. The property is capitalized at \$1,000,000 and is recognized as one of the most promising mines in the West. The officers are as follows: S. T. Godbe, president; George F. Wright, vice-president; Charles B. Mason, treasurer. One of the offices of the company is in Needles, at the Needles National Bank.—Needles Eye.

Rich Placers.

The Lavo (Cal.) Independent says that W. K. Miller of Lone Pine returned some days ago from the new placer mining camp 45 miles east of Mojave. In a letter he says: "While there I saw one nugget that was worth over \$1000 and a number ranging from \$20 to \$40. Everything about the mines looks very favorable. About 100 men are at the camp and more are going in every day."

A stage line now runs in connection with lines from Mojave and Keeler. The line is a great convenience, as before it was established the only way to reach the mines was by private conveyance.

Death of an Old Timer.

The Gazette is called upon to record the death of another of Nevada's pioneers in the person of Don H. Barker, who died at the Lick House in San Francisco. The first news was received by Dr. J. A. Lewis in the following telegram:

San Francisco, Oct. 27.—Mr. Barker died this afternoon. The remains will arrive in Reno Sunday morning.

Mrs. D. H. Barker.

Thus it is that the grim destroyer is gathering in his victims. Don H. Barker was born at Syracuse, N. Y., on November 2, 1834, and was therefore 89 years, 11 months and 25 days old. He came to this State in 1859, and has been a constant resident ever since. By profession he was a civil engineer, and his calling took him to the eastern part of the State, where he was a prominent figure in the good old days of the Pioche and White Pine excitement.—Reno Gazette.

Doomed Democrats

The People Rebuke the Big Bulldozer of the White House.

In Tuesday's State Elections The Republicans Make a Clean Sweep.

The Liberal Party Snowed Under in Salt Lake City.

The Secretary of the Treasury and the Gang of Bankers Fixing up a Scheme not to Coin any More Silver.

Special Dispatches to THE RECORD.
NEW YORK, Nov. 9.—Silver, 70 1/2; Copper, 99.65; Lead, 93.30.

SALT LAKE, Nov. 7.—It is stated that the Rio Grande Western has effected a reduction of nearly a thousand dollars a day in expenses since the management first commenced to retrench.

The Liberal party last night held a grand parade, the last to take place before election, which occurs to-day. The weather here this morning is clear and cool and the prospects for a heavy vote are good.

The Citizens' committee states that they have forecasted the result of the election to-day and that their majority will be about 1000. They take 4,500 of the 9,000 registered, as their portion, leaving the Liberals about 3,500. They seem to be sure of the first, second, third and fourth precincts and possibly the fifth. The Liberals deny these figures and claim that their average majority will be 600. The polls close to-day at 5:15 p. m.

The chief interest in the election in the East to-day will center in Virginia and Ohio. The question will be, what majority McKinley, who is looked upon as the next Republican candidate for President, will get in Ohio. The dispatches this morning put it at 25,000. It is thought by others that it will be nearer 45,000 than 25,000. It is expected that the Populists will carry Virginia.

Wm. H. Rowe, yesterday asked the county court for a street railroad franchise for this city.

CHICAGO, Nov. 7.—The City Aldermen held a quiet and peaceful meeting to-day and again elected George B. Swift, Mayor.

SALT LAKE, Nov. 8.—The result of the City election yesterday was a great triumph for the Citizens' Independent ticket. It elected all its city officers except Treasurer and the vote for that office is so close that it will take an official count to decide. The battle of the ballots was as earnestly waged as in the memorable election of February, 1890. From the opening of the polls to the close Liberal candidates were working as though the life of their party depended upon their efforts. Many claims were made of arbitrary acts of partisan judges; of unwarranted interference with voters and usurpation of the rights of civil officers by Deputy U. S. Marshals.

At four o'clock it looked as though the Liberals would score an almost complete victory, and at five such a victory was practically assured in the minds of the leaders. When an idea of the exact vote, the greatest percentage ever polled here, was obtained, misgivings took the place of assurance. Baskin, Bachman, Pratt and Smith, of the head of the Citizens' Independent ticket; Newell, Hardy and Young of the first precinct; Cheesman in the redoubtable second; Wain of the third; Clawson, Daley and Bach of the fourth, ten strong councilmen in all, sail in on the tidal wave of reform. Five Liberals, O'Meara, Cohn and Lynn in the fifth, and Remington and Cory in the second, will form a harmless minority, but one vastly clean and more able than many others the Liberal ticket might have returned. Holtschneider and Dean, the R. G. W. representatives, and Rich and Patterson, the U. P. agents, are both elected to stay at home. Whatever knifing the Amorinos or the Catholics did for Baskin or against Conklin was not particularly apparent in the result, nor were there any manifestations of it around the polls. It looks now as though the popularity of H. T. Duke and the combination of certain interests had elected him as Treasurer over Mr. Burton. This is the one serious regret of the whole Citizens' victory.

The news from the Legislative districts outside of the city indicate a majority of Democrats in both Houses of the Legislature. Even counting the Liberals with the Republicans, the Democrats will have a majority. The placing of both a Democratic and a Republican ticket in

the field has enabled the Liberals to elect their candidates from this district to the Legislature, three for the Council and six for the House, but, in the city Council election, it will be, it is thought, in a hopeless minority.

A special from Logan states that the Democrats have elected their candidate for Mayor.

Provo went Republican.

The scenes here this morning at an early hour, beggar description. From 2 a. m. to 5 a. m. the principal streets were thronged with a conglomerate horde who made the neighborhood wild with an unearthly racket of tin horns, drums, whistles and other campaign weapons.

The Herald this morning comes out with six roosters and announces the sweeping victory as follows: "A Catechism. The Citizens' Sweep the City. The Liberal Party now a 'Putrid Remnant.' All the General Offices, except Treasurer, and ten out of fifteen Councilmen. Rich is in the Soup. He comes out on the Liberal Ticket, but McCormick Downs him despite Liberal tricks and unconscionable Log-Rolling. It is an Ideal Waterloo."

Telegraphic specials from the Eastern States point to sweeping Republican victories in Massachusetts, New York, Ohio and Iowa, while Virginia, contrary to recent hopes, has gone strongly Democratic.

McKinley in Ohio receives sixty thousand majority. Iowa is carried by thirty thousand and in New York the Republicans sweep the State and secure the Legislature. Great Republican gains are also reported in Kansas. New York went Republican by 30,000.

A special from Washington says that the price of silver is advancing owing to the adoption by the Government of Russia of the white metal as part of her monetary system. At present the amount of silver in Russia used as money is not 53 cents per capita. It is stated that Russia can easily absorb twice the amount that she now does in silver, and is desirous of doing so for the purpose of pushing her commerce in the East with Persia, India and China, which countries use silver almost exclusively as money.

WASHINGTON, Nov. 7.—Secretary Carlisle thinks we could "use a few more silver dollars," but says he has not ordered any coined.

The silver question is not to be lost sight of during the approaching regular session of Congress. The silver men will keep it to the front and persist until silver shall have secured a fair hearing.

Rumors are afloat that Senator Voorhees will introduce a free coinage silver bill at the opening of the regular session. Voorhees declines to talk about the matter, but it is pointed out that he has always been a silver man, and declared during the debate of the repeal bill that he was no less a friend of silver than he had always been.

The United States Supreme Court to-day issued an order directing the Utah Courts to dispose of the confiscated church property in conformity with the recent act of Congress.

Congress adjourned without making an appropriation to carry out the provisions of the Geary act as amended, and the work of Chinese registration cannot be commenced until the appropriation is made, which will cause a delay in beginning the work, of several months at least.

The campaign this year in Massachusetts has been a very warm one. Elections take place to-day but it is impossible to predict the result.

The Populists will make great gains. In Pennsylvania, the Republicans claim they will carry the State by 75,000.

LONDON, Nov. 6.—Now that England has subjected Matabeleland, the government is perplexed, it is said, as to how the spoils shall be divided.

The new Franco-Russian alliance, cemented by the ovation to the Russian naval officers at Paris recently, it is now thought may become a serious menace to English interests.

SALT LAKE, Nov. 9.—An official count of the ballots cast on Tuesday for the general offices are as follows: Mayor Baskin is re-elected by a majority of 405, receiving 4178 votes to Mr. Conklin's 3773. Mr. Bachman is elected Recorder by 418 majority, and received 4194 votes to Arton's 3776. Duke is re-elected Treasurer, the only successful Liberal candidate on the general municipal ticket, with a majority of 101, receiving 4025 votes to Burton's 3924. Smith for Police Justice is elected by 653 majority, receiving 4278 to Eichnor's 3685. On the Councilmen's ticket the Citizens elect all in the First, one in the Second, all in the Third and all in the Fourth. The Liberals elect two in the Second and all in the Fifth. Of the total membership five are Mormons.

The greatest surprise developed in the city was the defeat of Moran for the

Legislative Council. It had been thought that a coalition would not be available to vote for the Democratic ticket to the extent of defeating any of the Liberal Legislative nominees, but Moran ran behind his ticket, and Williams ahead of his. All the remainder of the Liberal Legislative ticket was elected.

The Liberals take their defeat good naturedly except the Tribune, which claims that the Liberals had the Mormon church with its discipline, two or three other churches, the Republicans, the Democrats, a dishonest registration list, a majority of dishonest judges, the bulldozing of the United States Marshal's deputies and no end of money to fight against. Then it had the defection of some four hundred from its own ranks who, "either to gratify a personal spite or to vote for a Democratic Mayor, rather than for one who in national politics is a Republican, deserted their friends and went over to the enemy's camp."

Ryan, of the water works department, yesterday surrendered himself, to be dealt with by the court on the indictment against him for malfeasance in office.

The City Council last night refused to allow the gravity sewer arch to be built of concrete.

WASHINGTON, Nov. 9.—The result of the election greatly surprised all parties here yesterday. The silver men are elated and will renew the silver fight vigorously.

Secretary Carlisle held a conference with New York bankers and it is stated that a deal was placed on foot to relieve the treasury, and also that no orders for silver coinage are to be issued.

The members of the administration refuse to talk on the subject of Tuesday's election, and none of the Democratic leaders in Washington seem inclined to explain the Democratic crushing defeat.

LONDON, Nov. 9.—Yesterday an anarchist threw two bombs into a crowded theatre at Barcelona, Spain, one of which exploded, killing thirty people and wounding many others.

The Pahrangat Races.

Many and enthusiastic admirers of horse racing congregated at the race track in Pahrangat on the 1st inst., to witness the quarter mile race between Boas, owned by Mackey Brothers, and Monte, owned by John Richard. At an early hour the people commenced to come in from all quarters and the fact remains that a good, substantial crowd participated in the day's amusement.

There was no lack of enthusiasm on the part of the owners nor the lovers of horse-flesh, all anxious that their favorite horse should win.

The track was in excellent condition and the weather warm and pleasant. At precisely two o'clock Boas and Monte were led in to face the struggle for supremacy. Monte won the single quarter mile dash by from eighteen to twenty feet in a neat clean-cut race.

One other race was made up between Mackey's sorrel horse and James Castle's bay. The former won without a struggle.

The coroner, I am happy to say, did not get his hand into the County Treasurer's vaults, as some ill advised persons insinuated might happen prior to the event. The best of feeling prevailed between all participants of the jolly day.

Will Denton from Pioche attended the races.

Geo. Bell from Helene also was seen at the race track.

Notice of Intention to Apply for a Permit to Cut Timber on Public Land.

COD'S GIFT

ELECTRICITY

Nature's Own Remedy,

Delivered anywhere by Mail or Express.

Cures Others, Why Not You?

The B. B. Bliss Electric Body Belts and their Attachments are superior to all others. Thousands have been cured of
